SUSPENSE _____ Date _____

Remarks:

5 January 1983

MEMORANDUM FOR: Deputy Director for Intelligence

FROM: Director of Central Intelligence

SUBJECT: European Gas Study

25X1

the European gas study, would it be possible to wind up with a table which would line up the four cases in terms of percentage of dependence of Europe on Soviet gas and Soviet hard currency earnings in those sales in 1985 and then the year 2000, providing a ready comparison of where each one of the four approaches will take us. Doing that I think would make it a good deal more meaningful and valuable. We could present it to the newly formed Clark-chaired communications mechanism for circulation as they see fit.
